Along with this, you can also learn more about the AI in the game and compete with it by playing against it in online matches. All four of the game's available levels can be enjoyed for free from their main page, with two of them unlocked after reaching Level 2. Users can also enjoy a range of additional game content for free that includes skins, two characters, six ships and decorations, as well as Challenge Packs that feature just-for-fun puzzle challenges that can be finished in a number of ways. All of these are described in detail in the official Steam page. Learning From The Gameplay While there are a variety of different activities to explore and complete within this game – both solo and online – it's the AI that is the most fun to work against. When first starting, you're given a choice of difficulty and
