Get Social Sponsored Ads I was looking at the instructions for the big A and saw that they said to stack and glue together the square you wanted to use, and then to draw the lines with a white crayon. But the instructions also said to cut out the pieces with a paper cutter. I don't see how you would cut out the piece with a paper cutter, then draw lines across the cut out piece. I used to do some level 3 classes with my son's kindergarten teacher at the local library, and she used to have crayons with sharp ends for drawing lines. I, too, wonder how you would cut the pattern with a paper cutter and then draw lines across the cut out pattern. I guess it could be done, but I think it would be a bit of a pain. Good luck with it.

Q: Visual Studio 2015 - Cordova Reports Issue after update I've been trying to run my Ionic 1.2.1 app on the new Visual Studio 2015.
