But it might be true. Imagine that there was a resource that enabled every employee to be aware of all the opportunities available to them today, tomorrow and into the future. If you were unemployed, what would you be doing differently and why? To answer these questions, we need to discuss specific opportunities in the future. The average company will go through five major transitions in a career, each of which affects an employee's future opportunities. For today, let's look at the first two of these. Transition 1: Earned to Earned Right now, you may be earning more than ever before. This is because your education, experience and skills can be critical to an organization's success. As you get ahead, the skills and experience gained through your career are made to pay off with additional compensation. But don't you still have to earn the money you are being paid? In today's competitive job market, a large pool of people who are willing and able to work already exist. Your most valuable asset is your ability to show them how you will be of value. The first step for any job search is to put yourself in the best position to be noticed. While you are doing that, you 3e33713323
