

Download

On the next screen, click [Offline Activation] and upload the license file for your additional content. Transfer this license file to your Studio One... (File > Open > License File) If the license is not a license file, download (or transfer) it manually (File > Open > License Files). In Studio One, click [Offline Activation], select the license you want to activate, and then click [OK]. On the [Offline Activation] screen, you can use any existing license files to activate and download additional licenses. After clicking the [OK] button, the license download will begin in the background.
