

NOTE: You can skip step 3 and go directly to step 5 if you're using the latest version of PhpStorm. Step 2. In the Plugins window, click "Install", then click "Install" again, then click "Confirm" on the popup. Step 3. You'll be presented with the following screen: Step 4. The installation is complete, click "OK" to exit. Step 5. Start your favorite WebStorm. Enjoy:)

If this solution works for you, please mark as the solution worked for you by clicking the "Mark as ✓" button below. Thanks.

A: The license server is still available (in more than one form) which is rather surprising. So even if you have removed the cache files (which you should have for manual removal anyway), you can always remove the license

files (in %APPDATA\JetBrains\WebStorm\profiles\[your_project_name]\) (or when you removed the cache, in %APPDATA\JetBrains\WebStorm\profiles\[your_project_name]\config.jar) and restart the IDE.

A: This may not work if you installed IntelliJ using the installer, but I have seen this work for other people, including myself. If you have installed the IDE by copying files to a directory (rather than using the installer), you will need to delete or rename that directory. It is usually %APPDATA\JetBrains\WebStorm

You can also use the Log or Local History to search and see when/who ran the plugin so that you can figure out the directory and create a new one. I believe you will also need to clear the JetBrains cache directory, which you can search for in the log/history. Q: Strange same function call in different order Why following code prints 10 #include int main(){ printf("%d", 10); // prints 10 printf("%d ", 10); // prints 10 printf("%d", printf("%d",10)); // prints 10 } I really get confused by this. If i run with -Wall flag in gcc it shows warning of

It is located in the region of the Avalon Peninsula, and it is a popular destination for recreational and commercial boat travel. Fosdick Island is part of the much larger Fogo Island Group, which forms part of the Fogo Island Provincial Park Reserve. Description Fosdick Island is about long, and it has numerous small islands and coves, including Grape Island. There are two relatively large, raised harbors on the island: Northwest Harbour and Northeast Harbour. Both harbours are important fishing ports, and they are the main terminus for ferry services to the rest of Newfoundland and Labrador. The Northwest Harbour is surrounded by sand dunes, and there is a sand beach on the western shore of the harbor. Fogo Island is an important agricultural region, and there are some farms located on the island. There is also a population of moose that can be found on the island. The ridge system is important for fishing, as there are several bays along its southern coast. A road was built in the area in the early years of the 20th century, but it is currently disused.
