tion,. Get latest full software, crack, patch, serial numbers, registration codes, keygen utility & much more of Automation Studio P6 [cracked] [1.6 Mb] for free directly from FileHosting . Automation Studio [1.6 Mb] for free directly from FileHosting.

67. How to Save and Add Items to a Library in Automation Studio.Q: Case When in Distinct Format I am trying to make some custom formatting for my first column in SELECT DISTINCT. I want to break out cases where my case is only one. Example below. I am new to SQL so forgive me if this is an obvious answer. Case Status ----- ABC2323  
1 AB2323 2 AX2323 1 1231231231 1 Desired Result: Case Status ----- ABC2323 1 AB2323 2 1231231231 1

I tried: SELECT DISTINCT (Case WHEN column " AND column!= " THEN column ELSE " END) as case, status FROM table It works great except that it just removes the cases that are not 1. I only want to make that case for the cases where it is one. How can I do this? Thanks in advance. A: you can use is null SELECT DISTINCT (CASE WHEN LEN(column) > 0 and column " AND column!= " THEN column ELSE " END) as case, status FROM table or row\_number SELECT DISTINCT (CASE WHEN ROW\_NUMBER() OVER (PARTITION BY column order by 1) = 1 THEN column ELSE " END) as case, status FROM table
