I can't see the serial number on the VCI, but when I enter it it says it's not a recognized S/N, I also have no idea where the password for that is. I also don't know how I can find the serial number. Does anyone have any tips? I really have no idea where to find the serial number or how to find it Yes, the serial number is on the label. If it has the serial number you're looking for, then you've got it. If there is no serial number, this is not what you need.
