. It's a game that have a lot of missing files, and I haven't found any working patch or free version for this game. Sécurité et confiabilité Cylinder rocks. Delta & Moa. I didn't get the required error from AoE3 game when trying to launch it, but I did see the error Failed Could not load DATAP.BAR. So I decided to try installing SQLite ODBC Driver and Data Source as an option to get the error to go away. I started to get this error message, but surprisingly it started working. Today I wanted to play AoE3 again but it doesn't work as before. When I start the game I have the same error : Failed loading DATAP.BAR, not an AOE3 error message, but when I click on the info button on the top left corner I get this message : Failed loading Datapbar. That's not good, isn't it? A: I got the same error. When you start the game, go to Options and deselect all of the options. You should not have any of the SQLite ODBC Driver or Data Source options checked. Also, you may need to make sure that the game's option files are saved to your installation directory. So, create a directory on your main hard drive (where your other games are) called "AoE III" or something along those lines and then save the options file to that directory. Lastly, I noticed that the AOEm3 install is in the same folder as Age of Empires: Battle for Wesnoth (which is a non-AoE game). Make sure you give AoE III its own folder. /Applications/Age of Empires III.app/Contents/Resources/ Make sure you download the SDK and the samples and make sure to unzip both into their own folder. As a precaution, if you're not sure, you should probably uninstall Wesnoth (which is a different game, but it shares the same folder structure and is probably responsible for the error). I also like to create a completely new game and copy my aoe.plist from that. Once you've done all of that, you should be good to go. Q: Why is there no blog post about my question? I posted this question today: Omit implied html tag in text before a markdown

If the upcoming general elections were held today, a mass exodus of Sikhs would leave the Bharatiya Janata Party (BJP) fighting it out with the Congress in Haryana for a seat, according to a detailed socio-political study released by the Centre for the Study of Developing Societies (CSDS) today. In the Haryana assembly elections of 2012, that saw the BJP decimated in the state and Narendra Modi's 'Hindu Hriday Samrat' (Greatest Hindu ruler) dream of Haryana ruled by a 'Gurpurush' turn sour, the Adivasi or the VJT (Vohra and Jat) communities (both parties have only one seat each in the assembly) routed the BJP's candidates by a margin of 36 seats. "With the Adivasi votes being critical, the BJP had deliberately sat on the fence on the VJT issue, which was the biggest bone of contention with the Adivasis," said S. Gurumurthy, a researcher with CSDS. The study predicts that Haryana would witness a repeat of this in the Lok Sabha election this year. "In this election, the Adivasi vote is likely to be decisive. The BJP, which will be the main 'adivasi' party, should position itself as a pro-poor and anti-Adivasi party, which will make them non-toxic to Adivasis," said Gur 3da54e8ca3
