Bert Hardy (cricketer) Albert William Hardy (15 May 1885 — 6 February 1977) was a cricketer who played first-class cricket for Somerset and South Australia. Albert William Hardy was born in Sydney, Nova Scotia, and educated at The Hutchins School, Sydney and Wadham College, Oxford. In 1907 he went to Somerset, and was an opening bowler as well as playing as a batsman. In the 1911 season he was a hard-hitting batsman, the only time he scored 1000 runs in a season for Somerset. He was definitely an all-rounder and, despite having a poor county season, was picked for the Australian tour in 1912-13. He left Somerset to play with South Australia in 1919-20, with excellent results. He played a Test match in England against the touring MCC in 1920, but was not used in the next two Tests, as South Australia claimed the Ashes. He retired from first-class cricket in 1924. In August 1926 Hardy was part of an 11-man team (including J. C. Hendry, Jack Ryder and Herbert Sutcliffe) which visited Japan in an MCC tour. N. Pearce's XI cricketers[Limitations and specific recommendations of intravenous midazolam]. Midazolam is a short-acting benzodiazepine drug which produces a characteristic effect on the central nervous system. The aim of this study is to make a critical review of the literature about the pharmacokinetic and pharmacodynamic properties and the most important limitations of this drug, as well as to examine the evidence of its appropriate use. A search was performed in the PubMed database, using the keywords midazolam, midazolam studies, midazolam pharmacokinetics, midazolam pharmacodynamics, midazolam side effects, midazolam addiction and midazolam dependence. A total of

In this No Fear mystery, a kidnapped woman is rescued by the first man ever to see her face. In a small Florida town, Daphne, an intelligent, self-sufficient young woman, meets the town's resident kidnapper, a man with a dark, haunted past. Weeks into their relationship, the two discover that their shared history is a part of the unusual bond they're forming. But with a deadly opponent stalking them, their attraction is threatened. More than a captor-captured relationship, it's a betrayal-turned-heartfelt-love story. Meet Joe Kim My mom was born in Korea, my dad was born in Hawaii. Growing up, my parents always told us that we were adopted. I always thought that was a silly thing to say, but it turns out I'm not the only one who thought so. Because for me, being adopted was a part of who I am. I'm the first person I see every morning. I'm a part of my family, I'm American, I'm Korean, and I'm everything. This is my story. And it's a big one. I guess, at least to me, it's about finding the most important people in my life and holding them tight.A detailed theoretical and experimental study of the effect of self-pairing interactions on the stability and domain wall propagation of d(3) bimetallic and trimetallic triangular-lattice antiferromagnets. Density functional theory is used to study the effect of self-pairing interactions on the stability and domain wall propagation of the ferromagnetic and antiferromagnetic Heisenberg model on the triangular-lattice. We focus on the d(3) period, where a broken-symmetry state has been predicted. The previously studied bimetallic chains, and trimetallic chains, as well as the corresponding monometallic chains, can be treated as limiting cases. A comparison is made of the experimental susceptibility of the bimetallic compounds CoCr(2)Se(4) and CoCr(2)Te(4) to field-induced magnetization reversal with the theoretical predictions.Tiger Shroff turned Bigg Boss and will host his own show once again — Aahat Productions' much anticipated show Bigg Boss 11 will finally hit the air
