FIFA is an annual sports video game developed by Electronic Arts' EA Canada studio. FIFA is a popular game which shares a mode of play with Association football (or soccer), a sport played predominantly in countries with a majority English-speaking population.[1] The popularity of the FIFA series has led to its inclusion in The Guinness World Records as the best-selling sports video game series.[2] What is Football? Football, more formally known as association football (known colloquially in North America as soccer) is a team sport played with a ball, most commonly a spherical ball approximately the size of a modern basketball.[3] Teams of eleven players, known as eleven-a-side, can be divided into two halves of eleven players each and compete against the other side.[4] The game is associated with physical contact with the ball, with tactics, and goals. The

team with the most goals at the end of the match wins. The term "football" may also refer to the ball itself.[5] The word "football" has been used in the United Kingdom since the mid-16th century, but it is most commonly used in North America.[6] About Football™ Football™ is the breakthrough football experience that brings the exhilaration of the world's favourite sport to the forefront.
