“Your FIFA Career's Interaction with the Game's Physics is Incredible!” We've heard it again and again since we released FIFA 18: “Your FIFA Career's Interaction with the Game's Physics is Incredible!” It is a tremendous improvement on FUT 18 and FIFA 17, and marks a significant leap in the speed, accuracy and reactive nature of our gameplay physics engine. We've worked hard on this, and you guys have seen it! The Real Engine in FIFA 21 We've made a lot of ground in the last two years: “your FUT Career's interaction with the game's physics is incredible!” Some comparisons of our technology, for example: Players are more in-tact when you play FIFA FIFA gives you the most realistic movement for complete players with an incredible amount of freedom in that regard The fidelity and depth of movement and animation is further improved as you can run at higher speeds and sprint, and tackles, shooting and other actions come out more accurately We have a new, improved inertia engine: a global one-to-one physical match, letting you experience the game the way you'd play it on the pitch Our new interactive collisions engine not only makes the game more dynamic, but it also leads to a unique experience: you're more in-tact when you play FIFA We've expanded on the goal set-up elements: kicking with a curved trajectory, for example We've polished our movement and animations and we've improved the tools available in FIFA Players are more in-tact when you play FIFA HMT as the foundation of FIFA 21 gameplay The gameplay physics engine is the foundation of FIFA 21, as it is for the game as a whole: “with HMT, the physics in FIFA 21 is incredible!” You have seen the HMT technology evolve in FIFA 18: “It's a great advantage to have earned the best moves, and we'll continue to refine the technology: “we improved the accuracy and precision of our engine. The physics of the game is now significantly more accurate, and you can just jump and start sprinting.” Dynamic Trajectory Why

Features The World Player of the Year 2018 is the first year that includes a Women's Player of the Year award Two-year release cycle for the FIFA franchise, and the calendar year is more important in determining the release date. This year is the 20th year of the calendar year launch. A new story mode, Career, has replaced the Manager Mode. FIFA 22 introduces a brand new Player Impact Engine which is designed to give more control to players, as well as bring a balance between on-ball and off-ball actions. FIFA is updated to version 11.Q: Python Django - using 2 instances of the same application Can I have 2 instances of my Django application running on the same application (rather than an option for it in settings.py, like in I'm working on a product that needs to run asynchronously, and I'd prefer the ability to have it run independently in separate threads. A: The Django project offers an application to manage multiple Django projects. Install it by running pip install django-extensions on your machine. Create a Django project folder and make a file called manage.py with the following: from django.core.management import execute_from_command_line from myproject.settings import * execute_from_command_line(sys.argv) In your django project, run python manage.py to run the manage.py inside of a Django project. This will take care of your Django projects requirements. If you want to go further, and work with Docker, you could read through this tutorial: It explains how to create your own Docker image that runs your Django project

What's new in Fifa 22:

- **New Player Kits - These new kits offer slick template designs to give your players a unique look. More than 150 different kit designs will be available with a wide range of color palettes.**
- **New Player Career Mode**
- **New Squad Building and Transfer system - Home-grown players will have their name badge and crest appear on the back of the players shirt. Instead of buying raw players in the transfer market, you will be able to promote young academy players on the bench. This will also help you put together quality squads and build relationships with local fans and the community**
- **New Personal Expression in Manager Mode**
FIFA 22 allows you to create even more personal designs for your teams crest, creating stat tracking animations, personalization of player faces, and more.
