Story

The world of Tarnished has remained isolated, and has not passed a great many years since the day of its inception. The five lords of the Elden Ring have disappeared, and during that span, the four kingdoms of the Elden Ring have become ruled by the five warriors who are the main characters of the game. Those four warriors are now engaged in the struggle over the five creatures and the strong power of the Dark Essence they have acquired. Here we are, the heroes who are not the candidates who become the Lord of the Elden Ring, and there the five Warriors who are ruled by the great evil.

However, as new proof, a small land is discovered in the east. It is said that this new land is the beginning of another country, which has come about as a result of the erosion of all that the elder day. Upon further investigation of this land with a certain curiosity, Tarnished is revealed, and as you gain your power you yourself wonder

what will become of this land and these people. A new world awaits. A new country and a new history.

The first of our narrative, The Dusk War, comes with the rise of Tarnished. The two main enemies are, the Elden Ring, whose five warriors attempt to attain control of the Shado-based Chaos Beast and bring about the doom of the world, and the darkness, which receives the power of the 13 and attempts to absorb the continent of Kakariko and attain the abilities of the Shado-based Knights to destroy the world. However, as the two heroes, you yourself see unexpected paths and fight against unforeseen things by joining a number of adventures.

In our second story, which will take place to the east of Tarnished, the continent of Kakariko is engulfed in the great struggle from within.
