Save! The title is weird, but it's save. You should really save something more than that. jonesboro wgk sunset save and restore matt james - On this move by move game the original Nomi Chess system will not suffice. well as we will have to keep track of several pieces at once (in the game. The following save and restore system is incompatible with Perl 6 and variants of Lisps.Synthesis of (±)-trans-2,5-dimethyl-2,3-dihydrofuran-4-one. A practical synthesis of (±)-trans-2,5-dimethyl-2,3-dihydrofuran-4-one is described. This heterocyclic compound was prepared in 19 steps from (±)-L-menthone with an overall yield of 34%. Its absolute configuration was determined as S, using the modified Mosher's method.Q: Jenkins git clone error I am getting the following error when using Jenkins with Git. Credentials cache file C:\Users\\\.ssh\credentials not found The remote end hung up unexpectedly fatal: Could not read from remote repository. Please make sure you have the correct access rights and the repository exists. I have added the following entry to the git section of my jenkins configuration file: [ssh] ssh_args = -o ForwardAgent=yes -o ForwardX11=yes I have noticed that this is a problem for me only when using an SSH key, but when I do a manual clone the command is working as expected. Ideas Should I try the ssh_args with -h? Some other environment variables should I be setting? Is there a way to get Jenkins to work with SSH over HTTP Cloning over HTTP gets the username and password to the Git repository,
