#### What's New In Alchemist?

Illusion Labs Alchemist is a simple puzzle game that put you in the place of a dedicated alchemist. You will have to combine different elements to manufacture potions that will be needed to kill a yet not clearly defined enemy. You can play as a hero, but if your opponent is the evil Leon it will be hard to survive the rounds, as your skills won't be enough to manage the task. Leon's main goal will be to find out who are you, and what are you capable of. His methods are simple, but effective. Even if you act as a hero and succeed in defending against his attempts to find you, your skills, memory, and defense will be enough to use you as a pawn in his plans. Alchemist main features:

- The object is to combine elements into potions.
- There are four possible element combinations.
- You'll find them on four tables, or four possible windows.
- You can get at them by selecting it.
- Each element is represented by a picture that consists of two colors: transparent on the left and solid on the right.
- Each potion can be crafted from three elements only.
- It will be displayed on the right panel in a real-time fashion, starting from its background color to the finished product.
- This application uses dynamic processing, and all elements are displayed, on the right panel, simultaneously.
- There are also four elements to get in the game.
- You can get them from the three potentials windows (or tables).
- Each element has its own unique picture with a specific background.
- You can receive them by selecting it when you get a right potion.
- There is a button at the bottom of the screen.
- It will move you to the next element you should combine with the one you just used.
- Each potion you made will have its own name, and it will be displayed when you use the button.
- You can click on them to show their recipes.
- The time is also displayed at the bottom of the screen.
- You can use the yellow button at the bottom of the screen to view all the potions you created.
- You can use the black button at the bottom of the screen to create a new potion.
- It offers the command line parameter.
- You can access it by clicking on the small black button at the bottom of the screen.
- It offers a small black button at the bottom of the screen, which
