XDA-Developers, a community built around enthusiasts and developers working together on Android, is one of the largest open source communities. Ask HN: Reusing an old domain name? - vkamb What's the best way to reuse an old domain name? Should it be a new company and website, or should it be a subdomain? ====== greglindahl It depends on your situation. Maybe you need a new company, but you don't want to confuse your existing clients. Maybe you want to share the content of the old site with the new company. Maybe you don't need a new company at all. Maybe you want to switch to a new domain name. ~~~ vkamb Well, the old one has a lot of content, so it would be a subdomain. ------ jlengrand That is what is called a "situation". You have to look at it and define the real needs, the real problem. The role of cytokines in contact dermatitis. Contact dermatitis is one of the most common types of inflammatory skin disease. This paper is focused on the role of the cytokines in the different aspects of this inflammatory process. Studies on the role of cytokines in the pathogenesis of contact dermatitis are still incipient, but some of the clinical and histological features of contact dermatitis, as well as certain aspects of the path
