Adobe Photoshop CC 2019 for macOS includes a suite of features that make it the industry's leading imaging software for everyone in graphic design. Photoshop slides you through layers to easy start editing and make transformations. You also have a creative toolbox with advanced features like the new Content-Aware Fill, new and innovative tools that are powerful, effective, and easy to use right out of the box, and a wide range of new features for greater productivity and flexibility. How often do you need to add a new dimension to your images? Adobe Photoshop CC has lots of powerful tools for you to add more than one more dimension. You can import and bake live effects from a video file to recreate a particular moment such as a water shoot, creating the perfect virtual backdrop for your next photo shoot. Or add new angles to replay events such as a wedding or product launch. You can use live 3d elements to create a whole new set of camera angles. You can also add a plethora of new features to manage your images such as creating a mask, cropping the image, and improving the quality of your images. There are also lots of new features to enhance the speed and ease of your edit, including Introducing Content-Aware Fill, which delivers results within seconds, and Auto Mask, which enables you to work with smooth vertical or horizontal lines in your images directly across the screen. As part of today's update, Adobe Photoshop has launched a new shared workspace that helps you get more done with fewer clicks and no back and forth communication with people. When you work on the same project with the same team you're bound to see details to the same project so it's important to be able to communicate quickly and efficiently. The new shared workspace tool makes it easy to collaborate and see the most recently updated images by automatically syncing selections you are making as you complete the task. You can also instantly pull up the original image directly from the share panel so you don't have to wait to see if someone has already updated the file.
